Deleting an existing Plan Representative profile	X	X							X
Changing eSERVICE transaction capabilities for group participants						X	X	X (if additional groups are to be affected)	X

If the required sections are not completed in their entirety, the request will be considered 'not in good order' and cannot be processed. The instructions for completing these sections (and the fields contained within) are shown below.

SECTION 1: Plan representative profile access

Complete this section to add, modify, or delete a plan representative profile on eSERVICE. Descriptions of the fields in this section are listed below.

A - Maintenance Requested Specify the type of maintenance being requested by checking the appropriate box. Only one choice may be selected per request form submitted.

B - Plan Representative Information. Provide information about the plan representative for whom a profile is being added, modified, or deleted.

- If ADDING a new profile, all fields must be completed (except Alternate Mailing Address, which is optional).
- If MODIFYING an existing profile, the plan representative's Name and Social Security Number are required. In addition, any fields that require updating should be filled out with the new information.
- If DELETING an existing profile, only the plan representative's Name and Social Security Number are required.

C - Group(s) Affected. Indicate the group(s) to be affected by the requested plan representative profile maintenance. At least one group MUST be specified for the following types of profile maintenance requests:

- Adding a new plan representative profile.
- Changing the plan representative capabilities for a profile.
- Adding a group (or groups) to a plan representative profile.
- Removing a group (or groups) from a plan representative profile.

All fields MUST be completed, except for the *Plan Description*. The Group Number (EGN) is the seven-digit number used by Brighthouse Financial to identify the specific group or plan. The Plan Description is not required, but can be included to help specify which plan is being described, particularly for groups with multiple Brighthouse Financial plans.

If the maintenance being requested affects more than one group, additional groups can be listed in Section 3 of the form. If this is the case, be sure to check the box labeled 'CLICK HERE if additional groups are listed in Section 3'.

(NOTE: Groups should only be submitted together on the same form only if the maintenance being requested applies to them all. If groups should have different accesses or settings, they should be submitted separately).

- D - Plan Representative Capabilities.** Indicate which online accesses and capabilities the specified plan representative should have by checking 'Yes' or 'No' for each item listed. The capabilities listed include:
- **Access to Group Reports.** This gives the plan representative the ability to generate group-level reports through eSERVICE.
 - **Access to Participant Account Information.** This gives the plan representative the ability to view basic account information for group participants.

(NOTE: This feature is only available for ERISA plans and Non-ERISA Church plans. Plan representatives for Non-ERISA Voluntary Plans may not be given this access).

(NOTE: Some of the Plan Representative Capabilities listed may be future enhancements that are not currently available in eSERVICE.)

- E - Plan Representative Signature.** This signature is required when a profile is being ADDED or MODIFIED, but not when a profile is being DELETED. This signature indicates that the plan representative understands the confidentiality of the information they are being given access to by the group(s).

SECTION 2: Group participants level access (For Use Only: Plan Administrators of ERISA Plans or NON-ERISA Church Plans)

Complete this section to modify which transactions group participants can process online through eSERVICE. (NOTE: This section may ONLY be completed by Plan Administrators for ERISA or Non-ERISA Church plans).

- A - Group Participant Capabilities.** Indicate which online capabilities group participants should have by checking 'Yes' or 'No' for each item listed. The capabilities listed include:

- **Transfers between Funding Options.** This gives group participants the online ability to move money between the different fund options available for their contract.
- **Future Allocation Changes.** This gives group participants the ability to change how future account deposits are allocated to fund options available for their contract.
- **Automated Investment Strategy Changes.** This gives groups participants the ability to stop, start, or modify the MetLife Investment Strategies that are available for their contract.

(NOTE: Specifying 'Yes' for a transaction type will give specified group participants the ability to perform that transaction on eSERVICE, if their contract type and situation will allow it. Specifying 'No' for a transaction type means participants of the groups specified for this maintenance will not have the ability to process that type of transaction on eSERVICE, even if their contract would allow it.)

(NOTE: As additional transactions are made available online, plan representatives will be notified, and this form will be updated to include the new transactions.)

- B - Group(s) Affected.** Indicate the group(s) to be affected by the requested group participant-level access changes. At least one group MUST be specified when group participant-level access changes are being requested.

All fields MUST be completed, except for the Plan Description. The Group Number (EGN) is the seven-digit number used by MetLife to identify the specific group or plan. The Plan Description is not required, but can be included to help specify which plan is being described, particularly for groups with multiple MetLife plans.

If the maintenance being requested affects more than one group, additional groups can be listed in Section 3 of the form.

If this is the case, be sure to check the box labeled 'CLICK HERE if additional groups are listed in Section 3'. (NOTE: Groups should only be submitted together on the same form only if the maintenance being requested applies to them all. If groups should have different accesses or settings, they should be submitted separately).

SECTION 3: Additional groups

This section can be completed to include additional groups for the maintenance that is being requested. Instructions for completing the fields in this section are the same as those described for Section 1, C (when plan representative profile maintenance is being requested), or Section 2, Option B (when group participant-level access changes are being requested).

(NOTE: Groups should only be submitted together on the same form only if the maintenance being requested applies to them all. If groups should have different accesses or settings, they should be submitted separately).

SECTION 4: Plan administrator/employer authorization (Required)

This section MUST be completed for any type of maintenance request. Completion of this section indicates that the eSERVICE maintenance being requested is being requested by an authorized representative of the group(s) affected by the maintenance. It also indicates that the requestor understands the confidentiality of the information that can be accessed on eSERVICE by the designated plan representative(s).

SECTION 5: How to submit this form

After completing the form, review it to make sure all required data has been provided. Then, the form may be submitted by mail to the destination specified on the form, at the bottom of page three. The eSERVICE Plan Representative and Participant Access form may be submitted alone, or along with new group setup paperwork (for new groups). Please DO NOT submit the instruction pages—only the three form pages are required.
