Variable Funding Option Performance Update

The performance data quoted represents past performance and does not guarantee future results. Current performance may be lower or higher than the performance figures quoted. Performance current to the most recent month-end may be viewed at www.BrighthouseFinancial.com. The investment return and principal value of an investment will fluctuate and an investor's shares, when redeemed, may be worth more or less than their original cost. For Sub-Accounts that invest in Portfolios of the underlying Trust that were in existence prior to the Sub-Account inception date, these returns have been adjusted to reflect the charges and expenses of the American Growth Series variable annuity, as if the contract had existed during the stated period(s), including all Portfolio-level expenses, the Mortality & Expense Risk and Administration Asset Charges of 1.40% (the Mortality and Expense Risk Charge includes an additional charge of 0.25% of average daily net assets on the American Funds Bond, American Funds Growth, American Funds Growth-Income and American Funds Global Small Capitalization Sub-accounts) and the annual Account Fee of \$30. These results do not reflect the contingent deferred sales charge which begin at 7% and decrease over 7 years (for returns reflecting these charges, see the Standardized report pages in this document that follows this Nonstandardized report). These figures represent past performance and are not an indication of future performance.

Non-Standardized Performance: Without surrender charges applied

- Return Not Available

*Annualized for Funding Options/Portfolios in existence for more than one year.

Current performance may be lower or higher than the performance quoted.

This is past performance and is no guarantee of future results.

A Brighthouse Financial investment option may have a name and/or investment objective similar to that of another mutual fund with the same manager. Despite any similarity, the Brighthouse option is separate and distinct and will not have the same performance. Different performance will result from different investment policies, cash flows, fees, expenses and fund asset sizes.

The performance shown may reflect, for some periods described, the management of previous investment managers. Please see the prospectus for more information.

A fee waiver or expense limit may be or have been in place for any of the investment options. The reduced expenses that may result from this waiver or limit may increase performance results. Please see the prospectus for more information.

Portfolio and Portfolio share class availability may depend on the contract issue date. Please see the product prospectus for available funds.

Certain investment options may have adopted, with respect to certain classes, a distribution plan under Rule 12b-1 of the Investment Company Act of 1940. MetLife is paid the 12b-1 fee under the plan. Please see the prospectus for more information.

While diversification through an asset allocation strategy is a useful technique that can help to manage overall portfolio risk and volatility, there is no certainty or assurance that a diversified portfolio will enhance overall return or outperform one that is not diversified. An investment made according to one of these asset allocation models neither guarantees a profit nor prevents the possibility of loss.

Asset allocation portfolios are "fund of funds" portfolios. Because of this two-tier structure, each asset allocation portfolio bears its own investment management fee and expenses as well as its pro rata share of the management fee and expenses of the underlying portfolios. The Contract Owner may be able to realize lower aggregate expenses by investing directly in the underlying portfolios instead of investing in an asset allocation portfolio. In that case, you would not receive the asset allocation services provided by an investment adviser.

The Funding Options (i.e. underlying portfolios), which generally have the same investment objectives, policies and portfolio managers as the retail funds for which they are named, are separate and distinct from the retail funds. Their performance may be dramatically different from the performance of the retail funds due to differences in the funds' size, cash flow, expenses and the timing of purchases and sales of securities. These figures represent past performance and are not an indication of future performance. The investment return and contract value of a variable annuity contract will fluctuate over time so that a contract may be worth more or less than the sum of your purchase payments. For more information about the charges, see the prospectus which must precede or accompany this performance report.

Investment Performance Is Not Guaranteed.

This material must be preceded or accompanied by a prospectus for the American Growth Series variable annuity issued by New England Life Insurance Company. Prospectuses for the investment portfolios are available from your financial professional. The contract prospectus contains information about the contract's features, risks, charges and expenses. Investors should consider the investment objectives, risks charges and expenses of the investment company carefully before investing. The investment objectives, risks and policies of the funding options, as well as other information about the funding options, are described in their respective prospectuses. Please read the prospectuses and consider this information carefully before investing. Product availability and features may vary by state. Please refer to the contract prospectus for more complete details regarding the living and death benefits.

Variable annuities are long-term investments designed for retirement purposes. Variable annuities have limitations, exclusions, charges, termination provisions and terms for keeping them in force. There is no guarantee that any of the variable funding options in this product will meet its stated goals or objectives. The account value is subject to market fluctuations and investment risk so that, when withdrawn, it may be worth more or less than its original value. All product guarantees, including optional benefits, are subject to the claims-paying ability and financial strength of the issuing insurance company. Please contact your financial professional for complete details.

Withdrawals of taxable amounts are subject to ordinary income tax. Withdrawals made before age 59½ may also be subject to a 10% federal income tax penalty. Distributions of taxable amounts from a non-qualified annuity may also be subject to the 3.8% Net Investment Income Tax that is generally imposed on interest, dividends, and annuity income if the modified adjusted gross income exceeds the applicable threshold amount. Withdrawals will reduce the death benefit and account value. Withdrawals may be subject to withdrawal charges.

Any discussion of taxes is for general informational purposes only, does not purport to be complete or cover every situation, and should not be construed as legal, tax or accounting advice. Clients should confer with their qualified legal, tax and accounting advisors as appropriate.

The American Growth Series variable annuity is issued by New England Life Insurance Company, on Policy Form Series V80 and is distributed by Brighthouse Securities, LLC.

This material must be preceded or accompanied by a prospectus for the American Growth Series variable annuity issued by New England Life Insurance Company. Prospectuses for the investment portfolios are available from your financial professional. The contract prospectus contains information about the contract's features, risks, charges and expenses. Investors should consider the investment objectives, risks, charges and expenses of the investment company carefully before investing. The investment objectives, risks and policies of the funding options, as well as other information about the funding options, are described in their respective prospectuses. Please read the prospectuses and consider this information carefully before investing. Product availability and features may vary by state. Please refer to the contract prospectus for more complete details regarding the living and death benefits.

Variable annuities are long-term investments designed for retirement purposes. Variable annuities have limitations, exclusions, charges, termination provisions and terms for keeping them in force. There is no guarantee that any of the variable funding options in this product will meet its stated goals or objectives. The account value is subject to market fluctuations and investment risk so that, when withdrawn, it may be worth more or less than its original value. All product guarantees, including optional benefits, are subject to the claims-paying ability and financial strength of the issuing insurance company. Please contact your financial professional for complete details.

Withdrawals of taxable amounts are subject to ordinary income tax. Withdrawals made before age 59½ may also be subject to a 10% federal income tax penalty. Distributions of taxable amounts from a non-qualified annuity may also be subject to the 3.8% Net Investment Income Tax that is generally imposed on interest, dividends, and annuity income if the modified adjusted gross income exceeds the applicable threshold amount. Withdrawals will reduce the death benefit and account value. Withdrawals may be subject to withdrawal charges.

Any discussion of taxes is for general informational purposes only, does not purport to be complete or cover every situation, and should not be construed as legal, tax or accounting advice. Clients should confer with their qualified legal, tax and accounting advisors as appropriate.

The American Growth Series variable annuity is issued by New England Life Insurance Company, on Policy Form Series V80 and is distributed by Brighthouse Securities, LLC.
