### Variable Investment Option Performance Update

Brighthouse Life Insurance Company

The performance data quoted represents past performance and does not guarantee future results. Current performance may be lower or higher than the performance data quoted. Performance current to the most recent month-end may be viewed at [www.BrightHouseFinancial.com](http://www.BrightHouseFinancial.com). The investment return and principal value of an investment will fluctuate and an investor’s shares, when redeemed, may be worth more or less than their original cost. For Sub-Accounts that invest in Portfolios of the underlying Trust that were in existence prior to the Sub-Account inception date, these returns have been adjusted to reflect the charges and expenses of the Class A Variable Annuity, as the contract had existed during the stated period, including all Portfolios' expenses, the Mortality & Expense and Administration Charges of 0.75%, the annual Account Fee of $301 and the minimum sales charge of 1%. (Available for investments of $1 million or greater; sales charges vary based on amount contributed up to a maximum rate of 5.75%. Deduction of sales charges at higher rates would reduce the performance shown.) The Class A product does not impose any withdrawal charges. These figures represent past performance and are not an indication of future performance.
