## Brighthouse Life Insurance Company

The performance data quoted represents past performance and does not guarantee future results. Current performance may be lower or higher than the performance figures quoted. Performance current to the most recent month-end may be viewed at www.BrightnessFinancial.com. The investment return and principal value of an investment will fluctuate and an investor's shares, when redeemed, may be worth more or less than their original cost. Returns for Sub-Accounts that invest in Portfolios that were in existence prior to the Sub-Account inception date have been adjusted to reflect the charges and expenses of the Imprint Variable Annuity, as if the contract had existed during the stated period(s), including all Portfolio-level expenses, the Mortality & Expense and Administration Charges of 1.40%. These results do not reflect the Administrative Fee. These results do not reflect the withdrawal charges which begin at 7% and decrease over 7 years (for returns reflecting these charges, see the Standardized report pages in this document that follows this Nonstandardized report). **These figures represent past performance and are not an indication of future performance.**

A Brighthouse Financial investment option may have a name and/or investment objective similar to that of another mutual fund with the same manager. Despite any similarity, the Brighthouse option is separate and distinct and will not have the same performance. Different performance will result from different investment policies, cash flows, fees, expenses and fund asset sizes.

The performance shown may reflect, for some periods described, the management of previous investment managers. Please see the prospectus for more information.

A fee waiver or expense limit may be or have been in place for any of the investment options. The reduced expenses that may result from this waiver or limit may increase performance results. Please see the prospectus for more information.

Performance current to the most recent month-end may be viewed at www.BrighthouseFinancial.com. The investment return and principal value of an investment will fluctuate and an investor’s shares, when redeemed, may be worth more or less than their original cost. Standardized Performance for an Investment Option, as defined by the SEC, is the Average Annual Total Return for periods commencing no earlier than the Sub-Account inception date and terminating at the end of the most recent calendar quarter. Average Annual Total Returns shown that include periods prior to the Sub-Account inception date are Non-Standardized Performance. Charges for Standardized Performance include all Portfolio-level expenses, the Mortality & Expense and Administration Charges of 1.40% and the maximum applicable withdrawal charge of 7%.
