Variable Investment Option Performance Update

Brighthouse Life Insurance Company

The performance data quoted represents past performance and does not guarantee future results. Current performance may be lower or higher than the performance data quoted. Performance current to the most recent month-end may be viewed at www.BrighthouseFinancial.com. The investment return and principal value of an investment will fluctuate and an investor’s shares, when redeemed, may be worth more or less than their original cost. For Sub-Accounts that invest in Portfolios of the underlying Trust that were in existence prior to the Sub-Account inception date, these returns have been adjusted to reflect the charges and expenses of the PrimElite IV Variable Annuity, as if the contract had existed during the stated period(s), including all Portfolio-level expenses, the M&E risk and administration charges of 0.95%*** and the annual Account Fee of $301. These results do not reflect the withdrawal charges which begin at 8% and decrease over 8 years (for returns reflecting these charges, see the Standardized report pages in this document that follows this Nonstandardized report).

These figures represent past performance and are not an indication of future performance.

The performance data quoted represents past performance and does not guarantee future results. Current performance may be lower or higher than the performance data quoted. Performance current to the most recent month-end may be viewed at www.BrighthouseFinancial.com. The investment return and principal value of an investment will fluctuate and an investor's shares, when redeemed, may be worth more or less than their original cost. Each Investment Option consists of a sub-account of the separate account supporting the contract (a "Sub-Account") that invests solely in shares of a fund portfolio (a "Portfolio"). Standardized Performance for an Investment Option, as defined by the SEC, is the Average Annual Total Return for periods commencing no earlier than the Sub-Account inception date and terminating at the end of the most recent calendar quarter. Average Annual Total Returns shown that include periods prior to the Sub-Account inception date are Non-Standardized Performance. Charges for Standardized Performance include all Portfolio-level expenses, the M&E risk and administration charges of 1.35%***, the optional death benefit rider charges of 0.15%, the optional Earnings Preservation Benefit rider charge of 0.25%, optional Lifetime Withdrawal Guarantee Rider charge of 1.40% of the Total Guaranteed Withdrawal Amount, the maximum applicable withdrawal charge of 8% and the annual Account Fee of $301.

Past performance does not guarantee future results.
