

Variable Investment Option Performance Update

Brighthouse Life Insurance Company

The performance data quoted represents past performance and does not guarantee future results. Current performance may be lower or higher than the performance data quoted. Performance current to the most recent month-end may be viewed at www.BrighthouseFinancial.com. The account value is subject to market fluctuations and investment risk so that, when withdrawn, it may be worth more or less than its original value. For Sub-Accounts that invest in Portfolios of the underlying Trust that were in existence prior to the Sub-Account inception date, these returns have been adjusted to reflect the charges and expenses of the Brighthouse Retirement Account Variable Annuity, as if the contract had existed during the stated period(s), including all Portfolio-level expenses, and the Mortality and Expense Risk Charge of 1.25% and the annual Account Fee of \$0. These results do not reflect the withdrawal charge of 5% over 5 years (for returns reflecting these charges, see the Standardized report pages in this document that follows this Nonstandardized report). **These figures represent past performance and are not an indication of future performance.**

Non-Standardized Performance: Without surrender charges applied

A Brighthouse Financial investment option may have a name and/or investment objective similar to that of another mutual fund with the same manager. Despite any similarity, the Brighthouse option is separate and distinct and will not have the same performance. Different performance will result from different investment policies, cash flows, fees, expenses and fund asset sizes.

The performance shown may reflect, for some periods described, the management of previous investment managers. Please see the prospectus for more information.

A fee waiver or expense limit may be or have been in place for any of the investment options. The reduced expenses that may result from this waiver or limit may increase performance results. Please see the prospectus for more information.

Current performance may be lower or higher than the performance quoted.

This is past performance and is no guarantee of future results.

The Registered Fixed Account Option guarantees are subject to the financial strength and claims-paying ability of Brighthouse Life Insurance Company. Withdrawals from the Registered Fixed Account are subject to a market value adjustment upon plan termination. The market value adjustment may be higher or lower than your account value.

Additional prospectuses or disclosure memorandums for the Brighthouse Retirement Account variable annuity issued by Brighthouse Life Insurance Company and for the investment portfolios are available from your financial professional or at www.BrighthouseFinancial.com. The contract prospectus or disclosure memorandums contains information about the contract's features, risks, charges and expenses. The investment objectives, risks and policies of the investment options, as well as other information about the investment options, are described in their respective prospectuses. Investors should consider the investment objectives, risks, charges and expenses of the investment company carefully before investing. Please read the prospectuses and consider this information carefully before investing. Product availability and features may vary by state.

Variable annuities are long-term investments designed for retirement purposes. Variable annuities have limitations, exclusions, charges, termination provisions and terms for keeping them in force. There is no guarantee that any of the variable investment options in this product will meet its stated goals or objectives. The account value is subject to market fluctuations and investment risk so that, when withdrawn, it may be worth more or less than its original value. All product guarantees, including optional benefits where applicable, are subject to the claims-paying ability and financial strength of the issuing insurance company. Please contact your financial professional for complete details.

Distributions of 401(k), 403(b) or 457(b) salary reduction contributions allocated to your annuity account, and the earnings on such contributions, are generally not permitted prior to attaining normal retirement age under your retirement plan except under certain situations, such as your severance from employment with the employer sponsoring the plan or your death, disability or hardship as provided under the plan. Distributions of contributions and earnings may also be restricted as defined in the plan documents. Contact your plan administrator to determine when and under what circumstances you may request a distribution from your plan. Where permitted, distributions of taxable amounts are generally subject to ordinary income tax and, if made before age 59½, may be subject to a 10% federal income tax penalty. Distributions of taxable amounts from a non-qualified annuity may also be subject to the 3.8% Unearned Income Medicare Contribution Tax on Net Investment Income if your modified adjusted gross income exceeds the applicable threshold amount. In the case of 457(b) governmental plans, the 10% federal income tax penalty may apply to amounts rolled over from another type of qualified retirement plan or IRA. Because the purchase of a variable annuity through an employer retirement plan does not provide additional tax-deferral benefits beyond those already provided through the retirement plan, you should consider the variable annuity for its death benefit, annuity options and other non-tax related benefits. Distributions will reduce the living and death benefits and account value and may be subject to withdrawal charges.

The performance data quoted represents past performance and does not guarantee future results. Current performance may be lower or higher than the performance data quoted. Performance current to the most recent month-end may be viewed at www.BrighthouseFinancial.com. The account value is subject to market fluctuations and investment risk so that, when withdrawn, it may be worth more or less than its original value. Each Investment Option consists of a sub-account of the separate account supporting the contract (a "Sub-Account") that invests solely in shares of a fund portfolio (a "Portfolio"). Standardized Performance for an Investment Option, as defined by the SEC, is the Average Annual Total Return for periods commencing no earlier than the Sub-Account inception date and terminating at the end of the most recent calendar quarter. Average Annual Total Returns shown that include periods prior to the Sub-Account inception date are Non-Standardized Performance. Charges for Standardized Performance include all Portfolio-level expenses, and the Mortality and Expense Risk Charge of 1.25%, the contract administrative charge \$0, and the maximum surrender charge of 5%. **Past performance does not guarantee future results.**
