

# Variable Investment Option Performance Update

### **Brighthouse Life Insurance Company**

The performance data quoted represents past performance and does not guarantee future results. Current performance may be lower or higher than the performance figures quoted. Performance current to the most recent month-end may be viewed at www.BrighthouseFinancial.com. The investment return and principal value of an investment will fluctuate and an investor's shares, when redeemed, may be worth more or less than their original cost. For Sub-Accounts that invest in Portfolios of the underlying Trust that were in existence prior to the Sub-Account inception date, these returns have been adjusted to reflect the charges and expenses of the Series XTRA Variable Annuity, as if the contract had existed during the stated period(s), including all Portfolio-level expenses, the Mortality & Expense and Administration Charges of 1.70% and the annual Account Fee of \$30<sup>+</sup>. These results do not reflect the withdrawal charges which begin at 8% and decrease over 9 years (for returns reflecting these charges, see the Standardized report pages in this document that follows this Nonstandardized report). These figures represent past performance and are not an indication of future performance.

<sup>1</sup>This portfolio invests in a "feeder fund" that does not buy investment securities directly but instead invests in shares of a corresponding American Fund "master" fund, which in turn purchases investment securities. The performance of the feeder fund reflects the performance of the underlying master fund from the inception date for the underlying master fund, (American Funds Growth Fund - 2/8/84), however it also reflects the additional 0.55% 12b-1 fee assessed against the feeder fund. Therefore the return of the feeder fund is lower than that of the master fund. The inception date for the feeder funds was 4/28/2008.

Certain optional benefit riders have investment allocation restrictions. Not all investment portfolios are available for all product and/or optional benefit riders. Please see the product prospectus for more information.

Variable annuities are long-term investments designed for retirement purposes. Variable annuities have limitations, exclusions, charges, termination provisions and terms for keeping them in force. There is no guarantee that any of the variable investment options in this product will meet its stated goals or objectives. The account value is subject to market fluctuations and investment risk so that, when withdrawn, it may be worth more or less than its original value. All product guarantees, including optional benefits, are subject to the claims-paying ability and financial strength of the issuing insurance company. Please contact your financial professional for complete details.

Withdrawals of taxable amounts are subject to ordinary income tax. Withdrawals made before age 59½ may also be subject to a 10% federal income tax penalty. Distributions of taxable amounts from a non-qualified annuity may also be subject to the 3.8% Net Investment Income Tax that is generally imposed on interest, dividends, and annuity income if the modified adjusted gross income exceeds the applicable threshold amount. Withdrawals will reduce the death benefit and account value. Withdrawals may be subject to withdrawal charges.

The Series XTRA variable annuity is issued by Brighthouse Life Insurance Company (previously issued by MetLife Insurance Company USA) on Policy Form Series 8010 (11/00) and is distributed by Brighthouse Securities, LLC (member FINRA).
