Brighthouse SecureKey Fixed Indexed Annuities offer 100% protection¹ for your purchase payment against market downturns. Brighthouse SecureKey features ReadyPaySM, an optional Guaranteed Lifetime Withdrawal Benefit (GLWB) rider, which can provide a reliable stream of guaranteed lifetime income.² SecureKey is designed to provide safety from market loss, growth opportunities, and income for life. Three versions of this product are available (10-year, 7-year, and 5-year), each made up of 1-year index terms. At the end of each index term, the performance of your index is used along with the crediting strategy you chose to determine the amount of interest credited, if any, to your contract.

Allocations to an Indexed Account are not invested directly in an index. Instead, Brighthouse SecureKey Fixed Indexed Annuities track the performance of well-known market indices: S&P 500[®] Index, Russell 2000[®] Index, MSCI EAFE Index, and S&P 500[®] Low Volatility Price Return Daily Risk Control 5% Index (referred to below as "S&P 500 LV DPR 5%").^{A,B,C} The rate associated with your crediting strategy is guaranteed for the length of each index term, and new rates will be declared for each subsequent index term. The rates shown below are the current renewal rates. To reallocate your Indexed Account(s) and/or Fixed Account that will be renewing during this period, please contact your financial professional or call our Annuity Service Office at (800) 882-1292. If you'd like to keep the same crediting strategy, you do not need to take any further action. Your contract will automatically renew using the new rate for each allocation.

About the Crediting Strategies

Cap Rate:	The maximum rate that is used to determine the Index Credit for an Indexed Account at the end of the index term. The Cap Rate is declared at the beginning of each index term and will never be less than the Guaranteed Minimum Cap Rate. The Cap Rate may vary between Indexed Accounts and is not an annual rate.
Step Rate:	The percentage declared at the beginning of each index term that is used to determine the Index Credit at the end of the index term if the Index Return is positive or flat. The Step Rate will never be less than the Guaranteed Minimum Step Rate. The Step Rate may vary between Indexed Accounts and is not an annual rate.
Participation Rate:	The percentage declared at the beginning of each index term that is used to determine the Index Credit for an Indexed Account at the end of the index term. The Participation Rate will never be less than the Guaranteed Minimum Participation Rate. The Participation Rate may vary between Indexed Accounts and is not an annual rate.
Participation Rate with Spread Rate:	In addition to the Participation Rate defined above, the Spread Rate is a reduction of performance that is used to determine the Index Credit at the end of the index term after the application of any Participation Rate. The Spread Rate is declared at the beginning of each index term and will never be more than the Guaranteed Maximum Spread Rate. The Spread Rate may vary between Indexed Accounts and is not an annual rate.

¹ The purchase payment will be reduced by withdrawals, which may be subject to withdrawal charges and a Market Value Adjustment if applicable. All guarantees are subject to the claims-paying ability and financial strength of Brighthouse Life Insurance Company.

² Non-income withdrawals may affect the amount or ability to receive lifetime income. If the account value reduces to zero due to an income withdrawal, Brighthouse Financial will first pay any remaining guaranteed annual income in effect at the time the account value is reduced to zero and then begin making monthly payments, using the applicable lifetime withdrawal rate, on the next rider anniversary. If the account value is reduced to zero because there are insufficient funds to deduct the rider charge, lifetime income will be calculated using the applicable lifetime withdrawal rate. If the account value is reduced to zero due to a non-income withdrawal, lifetime income payments will not be received and the rider will terminate.

³ The initial Fixed Account interest rate will be guaranteed for the length of the withdrawal charge period. After the withdrawal charge period, a new Fixed Account interest rate will be declared annually. Minimum allocation to any Indexed Account or Fixed Account is \$500. Availability of the Fixed Account may vary by state and may be subject to restrictions. For Brighthouse SecureKey Advisory Fixed Indexed Annuity, the fixed interest rate is guaranteed for the 1-year fixed interest term.

Brighthouse SecureKey Fixed Indexed Annuities are insurance products and are not insured by the FDIC, the NCUSIF, or any other government agency, nor are they guaranteed by, or the obligation of, the financial institution that sells them.
