

Minimum Guaranteed Rates (6-Year)

Effective 04/28/2014

The Cap Rates and Step Rates reflect the minimum a rate can be set to for current purchasers of a Shield Level Selector contract. The rates do not reflect actual rates available, are not annual rates, and would accrue daily.

If there is negative index performance at the end of a term, Brighthouse Financial will absorb the loss up to the level of protection for the Shield Option selected and your account value will be reduced by any negative performance beyond the level of protection. If you do not elect Shield 100 or the Fixed Account, you could conceivably see a risk of substantial loss if the index declines more than your level of protection.

This material must be preceded or accompanied by a Brighthouse Shield Level Selector Annuity prospectus, issued by Brighthouse Life Insurance Company and, in New York only, by Brighthouse Life Insurance Company of NY, which contains information about the contract’s features, risks, charges, and expenses. Clients should read the prospectus, which is available from their financial professional, and consider its information carefully before investing. Brighthouse Financial reserves the right to substitute any index at any time. Product availability and features may vary by state.

Brighthouse Shield Level Selector Annuity is a long-term investment designed for retirement purposes. It has limitations, exclusions, charges, termination provisions, and terms for keeping it in force, and is not guaranteed by the broker/dealer, the insurance agency, the underwriter, or any affiliates of those entities from which it was purchased. All representations and contract guarantees, including the death benefit and annuity payout rates, are subject to the claims-paying ability and financial strength of the issuing insurance company. Because the client agrees to absorb all losses beyond their chosen Shield Rate, there is a risk of substantial loss of principal. Please refer to “Risk Factors” in the contract prospectus for more details.

Withdrawals of taxable amounts are subject to ordinary income tax. Withdrawals made before age 59½ may also be subject to a 10% federal income tax penalty. Distributions of taxable amounts from a non-qualified annuity may also be subject to the 3.8% Net Investment Income Tax that is generally imposed on interest, dividends, and annuity income if the modified adjusted gross income exceeds the applicable threshold amount. Withdrawals will reduce the death benefit and account value. Withdrawals may be subject to withdrawal charges.

Any discussion of taxes is for general informational purposes only, does not purport to be complete or cover every situation, and should not be construed as legal, tax, or accounting advice. Clients should confer with their qualified legal, tax, and accounting professionals as appropriate.

All guarantees, including any optional benefits, are subject to the claims-paying ability and financial strength of the issuing insurance company. Each issuing insurance company is solely responsible for its own financial condition and contractual obligations.
