The Maximum Growth Opportunity and Step Rates accrue daily and reflect only the potential maximum interest over the entire 1-, 3-, or 6-year term. Rates shown are not annual rates. At the end of any term, all rates will reset based on then current rates.

If positive index performance of the selected index at the end of a term is less than the Maximum Growth Opportunity Rate shown, you will receive that lower rate. For the Step Rates, you will receive the rate reflected only if the index performance at the end of the term is equal to or greater than zero.

If there is negative index performance at the end of a term, Brighthouse Financial will absorb the loss up to the level of protection for the Shield Option selected and your account value will be reduced by any negative performance beyond the level of protection. So if you do not elect Shield 100 or the Fixed Account, you could conceivably see a risk of substantial loss if the index declines more than your level of protection.

Please note: Allocations to a Shield Option are not invested directly in an index.

New Money Rate Lock Procedure: The Maximum Growth Opportunity and/or Step Rate or Fixed Account Option interest rate are guaranteed for 60 days from the date the application is signed, if the application is received by the Designated Office⁹ on or before seven calendar days of the application signed date. This material must be preceded or accompanied by a prospectus for the Brighthouse Shield Level SelectorSM Annuity issued by Brighthouse Life Insurance Company (Brighthouse Financial), which is available from your financial professional. The contract prospectus contains information about the contract’s features, risks, charges and expenses. Clients should read the prospectus and consider this information carefully before investing. Brighthouse Shield Level Selector is a long-term investment designed for retirement purposes and has limitations, exclusions, charges, termination provisions and terms for keeping it in force. There is a risk of substantial loss of principal for losses beyond the Shield Rate you select, because you agree to absorb all losses that exceed the chosen Shield Rate. Please refer to “Risk Factors” in the contract prospectus for more details. All product guarantees including those associated with the Shield Options are based on the claims-paying ability and financial strength of the issuing insurance company. They are not backed by the broker/dealer from which this annuity is purchased, by the insurance agency from which this annuity is purchased or any affiliates of those entities, and none makes any representations or guarantees regarding the claims-paying ability and financial strength of the issuing insurance company. Similarly, the issuing insurance company and the underwriter do not back the financial strength of the broker/dealer or its affiliates.

Withdrawals of taxable amounts are subject to ordinary income tax and if made before age 59½, may be subject to a 10% federal income tax penalty. Some broker/dealers and financial professionals may refer to the 10% federal income tax penalty as an “additional tax” or “additional income tax,” or use the terms interchangeably when discussing withdrawals taken prior to age 59½. Distributions of taxable amounts from a non-qualified annuity may also be subject to the 3.8% Unearned Income Medicare Contribution tax that is generally imposed interest, dividends, and annuity income if your modified adjusted gross income exceeds the applicable threshold amount. Withdrawals will reduce the living and death benefits and account value. Withdrawals may be subject to withdrawal charges.

Any discussion of taxes is for general informational purposes only, does not purport to be complete or cover every situation, and should not be construed as legal, tax or accounting advice. Clients should confer with their qualified legal, tax and accounting advisors as appropriate.
