The minimum guaranteed Cap Rates and Step Rates reflect the minimum rate that can be set for current purchasers of a Shield® Level 10 Advisory contract. The rates do not reflect actual rates available, are not annual rates, and would accrue daily.

Participate in rising markets up to your rate crediting type. Growth opportunities are based on the elected rate crediting type. The Shield Rate (level of protection) accrues daily and fully accrues on the term end date. If there is negative index performance at the end of a term, the issuing insurance company will absorb losses up to the level of protection for the selected Shield Option and your account value will be reduced by any negative performance beyond the level of protection. If you do not elect the Fixed Account, you could see a substantial loss if the index declines more than your level of protection.

- **S&P 500® Index^A** – Represents 500 leading companies in leading industries of the U.S. economy, capturing 80% coverage of U.S. equities.
- **Russell 2000® Index^B** – Captures approximately 2,000 small-cap companies and provides a comprehensive and unbiased small-cap barometer of U.S. equities.
- **MSCI EAFE Index^C** – Includes over 1,000 international stocks intended to measure major developed international equity markets in Europe, Australasia, and the Far East (EAFE).

Note: Allocations to a Shield Option are not invested directly in an index.

This material must be preceded or accompanied by a Brighthouse Shield Level 10 Advisory Annuity prospectus, issued by Brighthouse Life Insurance Company, which contains information about the contract's features, risks, charges, and expenses. Clients should read the prospectus, which is available from their financial professional, and consider its information carefully before investing. Brighthouse Financial reserves the right to substitute any index at any time.

Brighthouse Shield Level 10 Advisory Annuity is a long-term investment designed for retirement purposes. It has limitations, exclusions, charges, termination provisions, and terms for keeping it in force, and is not guaranteed by the broker/dealer, the insurance agency, the underwriter, or any affiliates of those entities from which it was purchased. All representations and contract guarantees, including the death benefit and annuity payout rates, are subject to the claims-paying ability and financial strength of the issuing insurance company. Because the client agrees to absorb all losses beyond their chosen Shield Rate, there is a risk of substantial loss of principal. Please refer to "Risk Factors" in the contract prospectus for more details.

Withdrawals of taxable amounts are subject to ordinary income tax. Withdrawals made before age 59½ may also be subject to a 10% federal income tax penalty. Distributions of taxable amounts from a non-qualified annuity may also be subject to the 3.8% Net Investment Income Tax that is generally imposed on interest, dividends, and annuity income if the modified adjusted gross income exceeds the applicable threshold amount. Withdrawals will reduce the death benefit and account value. Withdrawals may be subject to withdrawal charges.
