

New Contract Rates

Level 10 Advisory

Effective 05/15/2019 through 05/31/2019

Cap Rates and Step Rates accrue daily and reflect only the potential maximum interest over the entire 1-year term. Rates shown are not annual rates. At the end of any term, all rates will reset based on then-current renewal rates. If positive index performance of the selected index at the end of a term is less than the Cap Rate shown, you will receive the lower rate.

For the Step Rates, you will receive the rate reflected only if the index performance at the end of the term is equal to or greater than zero.

If there is negative index performance at the end of a term, the issuing insurance company will absorb the loss up to the level of protection for the Shield Option selected and your account value will be reduced by any negative performance beyond the level of protection. If you do not elect the Fixed Account, you could conceivably see a risk of substantial loss if the index declines more than your level of protection.
