

Fact Card

Brighthouse Shield Level SelectSM Advisory Annuity is a long-term contract intended for retirement or other long-term investment purposes. It uses a portion of retirement assets to help take advantage of market growth opportunities with the assurance of a level of downside protection other investment options may not provide. Shield is an index-linked annuity, which doesn't invest directly in the chosen index or indices but rather tracks their performance.

SHIELD OPTIONS

Each Shield Option has an associated Term, Index, Shield Rate, and a Cap or Step Rate.

Term: Flexibility to choose Terms that are 1, 3, or 6 years in length.

Index: Choose between three well-known market indices listed below to track performance:

- S&P 500[®] Index^A
- Russell 2000[®] Index^B
- MSCI EAFE Index^C

Shield Rate: Shield Rates of 10%, 15%, and 25% are available - referred to as Shield 10, Shield 15, and Shield 25, respectively. Performance is measured against the index or indices chosen, subject to the applicable Shield Rate if the performance is negative or the applicable Cap Rate or Step Rate if positive. Negative index performance beyond the Shield Rate (level of protection) could result in substantial loss. Please note that the Shield Rate is accrued daily, and fully accrues on the term end date. If a withdrawal is taken from the contract prior to the term end date, negative market performance could lead to a loss if it exceeds the accrued Shield Rate. See the contract and/or the prospectus for further details.

Cap Rate or Step Rate:⁴ The Cap Rate is the maximum growth that can be earned for your term. The Step Rate locks in a pre-determined percentage of growth if the chosen index is either flat or up at the end of the term. A new Cap Rate or Step Rate applies for subsequent terms and will be declared before the beginning of the term. Please note that the Cap Rate or Step Rate is accrued daily, and fully accrued on the term end date. If a withdrawal is taken from the contract prior to the term end date, any gain may be limited by the applicable accrued Cap Rate or Step Rate. See the prospectus for further details.

DEATH BENEFIT

For contract owners 75 or younger at issue, the Death Benefit is equal to the greater of:

1. The Account Value; or
2. The Purchase Payment, reduced proportionately by the percentage reduction in Account Value for each partial withdrawal.

For contract owners 76 and older at issue, the Death Benefit will be equal to the Account Value.

TRANSFERS

Transfers between the Shield Options and Fixed Account option are permitted within five calendar days at the end of each term.

¹ If you're buying an annuity to fund a qualified retirement plan or IRA, you should do so for the annuity's features and benefits other than tax deferral. In such cases, tax deferral is not an additional benefit of the variable annuity. References throughout this material to tax advantages, such as tax deferral and tax-free transfers, are subject to this consideration.

² Premium taxes and other taxes may apply.

³ The Fixed Account value is solely guaranteed by Brighthouse Life Insurance Company.

⁴ It is important to note that the Step Rates are generally lower than the Cap Rates. If Index Performance is equal to or greater than zero but less than the Step Rate, and you chose a Cap Rate for your Shield Option, the Performance Rate Adjustment will be lower than it otherwise would be if you had chosen a Step Rate. Alternatively, if Index Performance is positive and exceeds the Step Rate, and you chose a Step Rate for your Shield Option, the Performance Rate Adjustment will be lower than it otherwise would have been if you had chosen a Cap Rate.

Guarantees apply to certain insurance and annuity products, (not securities, variable, or investment advisory products) and are subject to product terms, exclusions, and limitations.

These other Contracts may have a withdrawal charge. In addition, these other Contracts may have different Shield Options, Shield Rates, Cap Rates and Step Rates. Brighthouse Shield Level SelectSM Advisory Annuity is a long-term investment designed for retirement purposes. It has limitations, exclusions, charges, termination provisions and terms for keeping it in force and is not guaranteed by the broker/dealer, the insurance agency, the underwriter, or any affiliates of those entities from which it was purchased. All representations and contract guarantees, including the death benefit and annuity payout rates, are subject to the claims-paying ability and financial strength of the issuing insurance company. Please refer to "Risk Factors" in the contract prospectus for more details.

Withdrawals of taxable amounts are subject to ordinary income tax and if made before age 59½, may be subject to a 10% federal income tax penalty. Some broker/dealers and financial professionals may refer to the 10% federal income tax penalty as an "additional tax" or "additional income tax," or use the terms interchangeably when discussing withdrawals taken prior to age 59½. Distributions of taxable amounts from a non-qualified annuity may also be subject to the 3.8% Unearned Income Medicare Contribution tax that is generally imposed on interest, dividends, and annuity income if your modified adjusted gross income exceeds the applicable threshold amount. Withdrawals will reduce the death benefits and account value. Withdrawals may be subject to withdrawal charges.
