Brighthouse Shield® Level Select Advisory Annuity

Brighthouse Shield® Level Select Advisory Annuity is a long-term contract intended for retirement or other long-term investment purposes. It uses a portion of retirement assets to help take advantage of market growth opportunities with the assurance of a level of downside protection other investment options may not provide. A Shield annuity is an index-linked annuity that doesn’t invest directly in the chosen index or indices, but rather tracks their performance.

| PURCHASE PAYMENT LIMITS | Minimum: $25,000 (qualified and non-qualified¹)  
Maximum: Up to $1 million (without prior company approval)  
Single premium index-linked deferred annuity. Additional purchase payments are not permitted. |
| ISSUE AGE | Maximum Issue Age: 85 years old |
| ACCESS TO YOUR MONEY | Annual Contract Fee: None  
Automated Withdrawals: A scheduled stream of monthly, quarterly, or annual withdrawals that may be taken from specified Shield Options and/or the Fixed Account, or proportionally from all Shield Options and the Fixed Account, as allocated. Automated required minimum distributions (RMDs) are available in any contract year. Automated withdrawals for purposes other than RMDs are available after the first contract year and may be subject to withdrawal charges if they exceed the Free Withdrawal Amount in a contract year. Other restrictions apply.  
Withdrawal Charge: None² |
| FIXED ACCOUNT | The Fixed Account, if available, pays a fixed rate of interest.³ |
| SHIELD OPTIONS | Each Shield Option has an associated term, index, Shield Rate, and a Cap Rate or Step Rate.  
Term: 1, 3, or 6 years  
Index: Choose between three well-known market indices listed below to track performance:  
• S&P 500® Index⁴  
• Russell 2000® Index⁵  
• MSCI EAFE Index⁶  
Shield Rate: Shield Rates of 10%, 15%, and 25% are available – referred to as Shield 10, Shield 15, and Shield 25, respectively. Performance is measured against the index or indices chosen, subject to the applicable Shield Rate if the performance is negative, or the applicable Cap Rate or Step Rate if positive. Negative index performance beyond the Shield Rate (level of protection) could result in substantial loss. Please note that the Shield Rate is accrued daily, and fully accrues on the term end date. If a withdrawal is taken from the contract prior to the term end date, negative market performance could lead to a loss if it exceeds the accrued Shield Rate. See the prospectus for further details. |
SHIELD OPTIONS (continued)

Cap Rate or Step Rate: The Cap Rate is the maximum growth that can be earned for the term. The Step Rate locks in a predetermined percentage of growth if the chosen index is either flat or up at the end of the term. A new Cap Rate or Step Rate applies for subsequent terms and will be declared before the beginning of the term. Please note that the Cap Rate or Step Rate is accrued daily, and fully accrued on the term end date. If a withdrawal is taken from the contract prior to the term end date, any gain may be limited by the applicable accrued Cap Rate or Step Rate. See the prospectus for further details.

DEATH BENEFIT

For contract owners 75 or younger at issue, the death benefit is equal to the greater of:

1. The account value; or
2. The purchase payment, reduced proportionately by the percentage reduction in account value for each partial withdrawal.

For contract owners 76 and older at issue, the death benefit will be equal to the account value.

1 If the client is buying an annuity to fund a qualified retirement plan or IRA, they should do so for the annuity’s features and benefits other than tax deferral. Tax deferral is generally a feature of a qualified retirement plan or IRA, so an annuity would not provide an additional tax deferral benefit. References throughout this material to tax advantages, such as tax deferral and tax-free transfers, are subject to this consideration. The product described in this material is not made available to employer-sponsored qualified retirement plans. For non-qualified annuities, tax deferral is not available to corporations and certain other entities.

2 Premium taxes and other taxes may apply.

3 The Fixed Account value is solely guaranteed by Brighthouse Life Insurance Company.

4 It is important to note that the Step Rates are generally lower than the Cap Rates. If index performance is equal to or greater than zero but less than the Step Rate, and you chose a Cap Rate for your Shield Option, the Performance Rate Adjustment will be lower than it otherwise would be if you had chosen a Step Rate. Alternatively, if index performance is positive and exceeds the Step Rate, and you chose a Step Rate for your Shield Option, the Performance Rate Adjustment will be lower than it otherwise would have been if you had chosen a Cap Rate.

Investment performance is not guaranteed.

This material must be preceded or accompanied by a Brighthouse Shield Level Select Advisory Annuity prospectus, issued by Brighthouse Life Insurance Company, which contains information about the contract’s features, risks, charges, and expenses. Clients should read the prospectus, which is available from their financial professional, and consider its information carefully before investing. Brighthouse Financial reserves the right to substitute any index at any time.

Brighthouse Shield Level Select Advisory Annuity is a long-term investment designed for retirement purposes. It has limitations, exclusions, charges, termination provisions, and terms for keeping it in force, and is not guaranteed by the broker/dealer, the insurance agency, the underwriter, or any affiliates of those entities from which it was purchased. All representations and contract guarantees, including the death benefit and annuity payout rates, are subject to the claims-paying ability and financial strength of the issuing insurance company. Because the client agrees to absorb all losses beyond their chosen Shield Rate, there is a risk of substantial loss of principal. Please refer to “Risk Factors” in the contract prospectus for more details.

Withdrawals of taxable amounts are subject to ordinary income tax. Withdrawals made before age 59½ may also be subject to a 10% federal income tax penalty. Distributions of taxable amounts from a non-qualified annuity may also be subject to the 3.8% Net Investment Income Tax that is generally imposed on interest, dividends, and annuity income if the modified adjusted gross income exceeds the applicable threshold amount. Withdrawals will reduce the death benefit and account value. Withdrawals may be subject to withdrawal charges.

Any discussion of taxes is for general informational purposes only, does not purport to be complete or cover every situation, and should not be construed as legal, tax, or accounting advice. Clients should confer with their qualified legal, tax, and accounting professionals as appropriate. All guarantees, including any optional benefits, are subject to the claims-paying ability and financial strength of the issuing insurance company. Each issuing insurance company is solely responsible for its own financial condition and contractual obligations.
