The minimum guaranteed Cap Rate and Step Rates reflect the minimum rate that can be set for current purchasers of a Brighthouse Shield Level Pay PlusSM Annuity contract. The rates do not reflect actual rates available, are not annual rates, and would accrue daily.

If there is negative index performance at the end of a term, the issuing insurance company will absorb losses up to the level of protection for the selected Shield Option and your account value will be reduced by any negative performance beyond the level of protection. If you do not elect the Fixed Account, you could see a substantial loss if the index declines more than your level of protection.

Some options and features available for Brighthouse Shield Level Pay Plus Annuity may not be available in all states or for all firms. This product is not available in New York.

- **S&P 500 Index^A** – The index represents 500 leading companies in leading industries of the U.S. economy, capturing 80% coverage of U.S. equities.

- **MSCI EAFE Index^C** – The index includes over 1,000 international stocks intended to measure major developed international equity markets in Europe, Australasia, and the Far East (EAFE).

Note: Allocations to a Shield Option are not invested directly in an index.
