

Brighthouse SmartGuard Plus®

New Business Rates

Rates effective as of 07/17/2023

Brighthouse SmartGuard Plus® is a registered index-linked universal life insurance policy with a Guaranteed Distribution Rider (GDR). The policy owner may allocate the net premiums to one or more Indexed Accounts¹ with Buffer Rates and Cap Rates or to the Fixed Account. Each Indexed Account will be credited interest based on index performance, subject to Cap Rates and Buffer Rates at the end of each 1-year term. Cap Rates will reset based on the then-current renewal rates at the end of the term. Buffer Rates of 10%, 15%, 20%, and 100% are available and guaranteed for the 1-year term. Some Buffer Rate options may not be available upon renewal.

If index performance is positive at the end of the term, the lower of the Cap Rate or the index performance will be credited to the Indexed Account. If there is negative index performance at the end of the 1-year term, the issuing insurance company will absorb losses up to the level of protection for the selected Buffer Rate and the Indexed Account will be reduced by any negative performance beyond the level of protection. The policy owner could see a substantial loss if they do not elect the Fixed Account.
