Income Strategy	Initial Purchase Payment at Age 55	Accumulated Value at Age 65	Income Starting at Age 65	Guaranteed Lifetime Income
<b>Guaranteed Income Builder</b>	\$100,000		\$11,179.56	<b>YES</b>

1 Kathy wants to begin taking \$11,179.56 from her investment portfolio every year, beginning at age 65.<sup>1</sup>

She would like to initially withdraw 4% of her investment portfolio, and have her first withdrawal equal \$11,179.56.

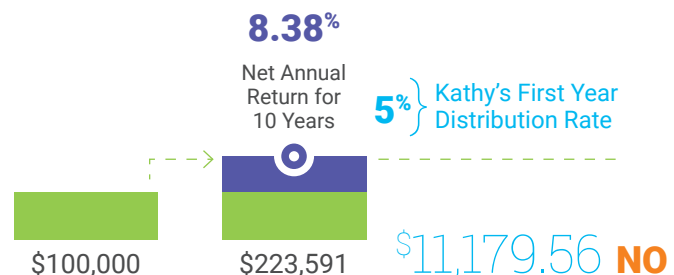

In order for her first withdrawal to equal the income payment from Guaranteed Income Builder, she would need her assets to grow from \$100,000 to \$279,489 in 10 years – a net annual return of 10.82% each year.<sup>1</sup>

2 Kathy wants to begin taking \$11,179.56 from her investment portfolio every year, beginning at age 65.<sup>1</sup>

<sup>1</sup> Kathy could choose to withdraw \$11,179.56 from her investment portfolio at age 65 regardless of market performance, though her initial withdrawal rate could be higher or lower than she prefers. Future payments of \$11,179.56 from an investment portfolio are not guaranteed to remain the same or last for life, and are subject to market gains and losses that may provide income higher or lower than this amount.

The examples are hypothetical and for illustrative purposes only. The 4% and 5% withdrawals from a hypothetical investment portfolio represent typical withdrawal rates that may help your withdrawals last throughout retirement. In order to maintain a steady amount withdrawn in future years, your percentage will change or the payment amount will vary after the first year depending on performance, which is not guaranteed. There is no account value or lump sum available with the Guaranteed Income Builder once income payments begin. There is an account value for the investment portfolios, and withdrawal amounts are not generally restricted. These hypothetical examples do not represent an investment in any specific product and should not be deemed a representation of past or future performance or a guarantee of any kind. Charges and expenses that would be associated with an actual investment and the impact of taxes are not reflected.

Future Guaranteed Income Builder income payments are based on the annuity purchase rates available on the day you make a purchase payment into the Guaranteed Income Builder deferred income annuity. For this example, Guaranteed Income Builder income payments were based on a single purchase payment, Lifetime Income with Cash Refund for a female, and the annuity purchase rate in effect on 06/15/23, and are not to be construed as a guarantee or estimate of amounts to be paid in the future. Please ask your financial professional to provide you with a Guaranteed Income Builder quote that shows the actual future income payments you would receive if you made a purchase payment into the Guaranteed Income Builder on the day the quote was run.

Buying an annuity to fund a qualified retirement plan or IRA should be done for the annuity's features and benefits other than tax deferral. Tax deferral is generally a feature of a qualified retirement plan or IRA, so an annuity would not provide an additional tax deferral benefit. References throughout this material to tax advantages, such as tax deferral and tax-free transfers, are subject to this consideration. The product described in this material is not made available to employer-sponsored qualified retirement plans. For non-qualified annuities, tax deferral is not available to corporations and certain other entities.

Any discussion of taxes is for general informational purposes only, does not purport to be complete or cover every situation, and should not be construed as legal, tax, or accounting advice. Clients should confer with their qualified legal, tax, and accounting professionals as appropriate.
