

Brighthouse Shield Level Pay PlusSM Advisory Annuity

Fact Card

A Brighthouse Shield Level Pay Plus Advisory Annuity is an index-linked annuity,¹ which is a long-term financial product designed to help you save for retirement. This type of annuity lets you participate in growth opportunities up to a certain percentage by tracking the performance of a market index while providing a level of protection in down markets.² The product features the added benefit of providing guaranteed lifetime income through the choice of two versions of our built-in income rider: Market Growth and Market Growth with Rollup.³ Your financial professional can help you determine which version may be right for you. This is only a summary. Please read the prospectus for complete details.

You may only purchase a Brighthouse Shield Level Pay Plus Advisory Annuity if you are a participant in an account established under a fee-based program that is sponsored and maintained by a broker/dealer or other financial intermediary approved by Brighthouse Financial. Shield Level Pay Plus Advisory annuity does not have a withdrawal charge. Any amounts you authorize to have withdrawn from your contract to pay for fees and expenses associated with a fee-based program will be treated as a withdrawal and may have consequences, including adverse tax consequences.

PURCHASE PAYMENT LIMITS

Minimum: \$25,000 (qualified and non-qualified⁴)
Maximum: Up to \$1 million (without prior company approval)
 Single premium index-linked deferred annuity. Additional purchase payments are not permitted.

ISSUE AGE

Minimum Issue Age: 50 years old **Maximum Issue Age:** 85 years old

ACCESS TO YOUR MONEY

Annual Benefit Payments: On and after the Annual Benefit Commencement Date, you can withdraw up to the Annual Benefit Payment in a contract year without impacting your Benefit Base⁵ and Net Purchase Payment Amount (if applicable).⁶ Refer to the "Annual Benefit Payments" section for more details.

Automated Withdrawals: On and after the Annual Benefit Commencement Date, you can schedule monthly, quarterly, semi-annual, or annual withdrawals up to the Annual Benefit Payment. Payments may be taken from specified Shield Options and/or the Fixed Account, or proportionally from all Shield Options and the Fixed Account, as allocated. Additionally, automated withdrawals may be set up to satisfy required minimum distributions (RMDs).

Fixed Account Automated Withdrawal Processing: As an alternative to automated withdrawals outlined above, you may elect to have your Annual Benefit Payment processed from the Fixed Account, if available. See the prospectus for more details.

FIXED ACCOUNT

The Fixed Account, if available, pays a fixed rate of interest.⁷

SHIELD OPTIONS⁸

Each Shield Option has an associated term, index, Shield Rate, and rate crediting type.

Term: Flexibility to choose terms that are 1, 2, 3, or 6 years in length.

Index: Choose from well-known market indices to track performance:⁹

• S&P 500[®] Index^A • Russell 2000[®] Index^B • MSCI EAFE Index^C • Nasdaq-100[®] Index^D

SHIELD OPTIONS (CONTINUED)

Shield Rate: Shield Rates of 10%, 15%, and 25% are available – referred to as Shield 10, Shield 15, and Shield 25, respectively. The Shield Rate (level of protection) is the amount of any negative index performance that is absorbed by Brighthouse Financial at the term end date. Performance is measured against the index or indices chosen, subject to the applicable Shield Rate if the performance is negative or the applicable rate crediting type if positive. Negative index performance beyond the Shield Rate could result in a substantial loss. The Shield Rate accrues daily and fully accrues on the term end date. If a withdrawal is taken from the contract prior to the term end date, negative index performance could lead to a loss if it exceeds the accrued Shield Rate. See the prospectus for more details.

Rate Crediting Type:¹⁰ Cap Rate is the maximum performance that can be earned at the end of the term based on index performance. Step Rate credits a predetermined percentage of growth if the chosen index is either flat or up at the end of the term. Step Rate Edge credits a predetermined percentage of growth if the index performance is greater than or equal to the Shield Rate at the end of the term. A new rate applies for subsequent terms and will be declared before the beginning of the term. The rate crediting type accrues daily and fully accrues on the term end date. If a withdrawal is taken from the contract prior to the term end date, any gain may be limited by the applicable accrued rate crediting type. See the prospectus for more details.

DEATH BENEFIT

For contract owners age 80 or younger at issue, the death benefit is equal to the greater of:

1. The account value; or
2. The purchase payment, reduced proportionately by the percentage reduction in account value for each partial withdrawal.

For contract owners age 81 and older at issue, the death benefit will be equal to the account value.

TRANSFERS

Transfers between the available Shield Options and Fixed Account are only permitted within 5 days following the end of each term.

RIDER VERSIONS⁹

At contract issue, you must choose between two versions of our income rider: Market Growth and Market Growth with Rollup. Each version uses a Benefit Base to determine your Annual Benefit Payment (see “Annual Benefit Payments” section on the next page). The Benefit Base is also the amount used to calculate the rider charge.¹¹ The Benefit Base cannot be withdrawn as a lump sum or paid as a death benefit and is not the amount that is guaranteed to be returned to you if you surrender your contract. The Benefit Base will decrease on any withdrawal taken prior to the Annual Benefit Commencement Date (early withdrawal) and/or in excess of the Annual Benefit Payment (excess withdrawal).¹² The initial Benefit Base is equal to the purchase payment and is increased as outlined below.

Market Growth: Offers the potential for returns to build benefit amounts faster than some other guaranteed income products. The growth of your account value is based on index performance and the elected Shield Options. Depending on when you choose to begin receiving income, you may benefit from higher withdrawal rates if you select Market Growth compared to Market Growth with Rollup.

Automatic Step-Ups: The Benefit Base will automatically step up if the account value increases and is greater than the Benefit Base on each contract anniversary prior to your 91st birthday.¹³

Market Growth with Rollup: Can offer comfort and reliability of guaranteed growth of the Benefit Base – no matter the market conditions.¹⁴

Rollup Rate: A Rollup Rate of 5% will be applied to the Benefit Base for the first 10 contract years from the date of issue in years where there are no withdrawals taken.¹⁵ The Rollup Rate is calculated using simple interest based on the Net Purchase Payment Amount.⁶ For example, a \$100,000 premium payment and 5% rollup would result in a set rollup amount of \$5,000 each year the rollup applies. The Rollup Rate is applied before deducting any rider charge and before taking into account any Automatic Step-Ups (see “Automatic Step-Ups” above).¹⁶

Growth From the Higher of Two Values: At the end of the contract year, the Rollup Rate is applied to the Benefit Base and then compared to the account value to determine whether an Automatic Step-Up should be applied (see “Automatic Step-Ups” above). The new Benefit Base will then reflect the higher value of either the 5% rollup or the step-up.

ANNUAL BENEFIT PAYMENTS

The Annual Benefit Payment (ABP) is the maximum amount that may be withdrawn in a contract year without reducing the Benefit Base. There is no ABP before the Annual Benefit Commencement Date, which cannot occur prior to age 59½.

The ABP equals the Benefit Base multiplied by the applicable withdrawal rate. The withdrawal rate will be determined at the Annual Benefit Commencement Date and is based on the covered person's age at the time of the Annual Benefit Commencement Date, the contract year from the rider issue date, and whether Single or Joint Life Income is elected. If the account value is reduced to zero due to a non-excess withdrawal¹⁷ or if there are insufficient funds to deduct the rider charge, lifetime income payments will be calculated using the applicable lifetime guarantee rate. If the account value is reduced to zero due to early or excess withdrawals, you will not receive lifetime income payments.¹⁸

COVERED PERSONS

The covered person(s) are the individuals whose lives are the basis for determining benefits under the income rider.

Covered Person for Single Life Income:

- Single ownership: The owner (if the owner is a natural person)
- Joint ownership: The older joint owner
- Entity ownership: The annuitant

Covered Person for Joint Life Income:

- The owner, older joint owner, or annuitant (if the contract is entity-owned) is the covered person at contract issue
- A joint covered person must be added if Joint Life Income is elected, subject to the following:
 - The covered person and joint covered person must be spouses
 - The age of the joint covered person cannot be more than 10 years younger than the covered person
- The joint covered person will be the primary beneficiary

PAYOUT OPTIONS

Payout options to turn retirement assets into lifetime income:

- Fixed Life Annuity, with and without guarantee periods
- Fixed Joint and Last Survivor Annuity, with and without guarantee periods

FEES AND CHARGES

The annual rider charge is 1.50% of the Benefit Base.¹⁹

Guarantees apply to certain insurance and annuity products (not securities, variable, or investment advisory products) and are subject to product terms, exclusions, and limitations.

THE CORPORATIONS MAKE NO WARRANTIES AND BEAR NO LIABILITY WITH RESPECT TO THESE PRODUCTS.

¹ Brighthouse Shield Level Pay Plus Advisory Annuity is an index-linked annuity, which means it tracks the performance of one or more market indices and does not invest directly in the markets.

² Participate in rising markets up to your rate crediting type. Growth opportunities are based on the elected rate crediting type. The issuing insurance company will absorb losses up to your level of protection in falling markets. Your account value will be reduced by any negative index performance beyond your elected level of protection. If you do not elect the Fixed Account, you could see a substantial loss if the market declines more than your level of protection. Availability of the Fixed Account may vary by state.

³ The income rider is referred to as the Guaranteed Lifetime Withdrawal Benefit (GLWB) Rider in the prospectus.

⁴ Buying an annuity to fund a qualified retirement plan or IRA should be done for the annuity's features and benefits other than tax deferral. Tax deferral is generally a feature of a qualified retirement plan or IRA, so an annuity would not provide an additional tax deferral benefit. References throughout this material to tax advantages, such as tax deferral and tax-free transfers, are subject to this consideration. The product described in this material is not made available to employer-sponsored qualified retirement plans. For non-qualified annuities, tax deferral is not available to corporations and certain other entities.

⁵ Benefit Base is referred to as the GLWB Base in the prospectus.

- ⁶ Net Purchase Payment Amount is the purchase payment reduced for any early or excess withdrawals and is only applicable to the Market Growth with Rollup variation of the GLWB Rider.
- ⁷ The Fixed Account value is solely guaranteed by Brighthouse Life Insurance Company.
- ⁸ Shield Options available may vary by state or firm. The Shield Options available after the Annual Benefit Commencement Date may vary from the Shield Options available before the Annual Benefit Commencement Date.
- ⁹ Index performance excludes the reinvestment of dividends.
- ¹⁰ In exchange for a predetermined percentage of growth, Step Rates and Edge Rates are generally lower than Cap Rates for the same Shield Options. Additionally, Edge Rates are generally lower than Step Rates for the same Shield Options. Rates will vary based on the selected term, index, and level of protection.
- ¹¹ Brighthouse Shield Level Pay Plus Advisory Annuity has an annual rider fee rate of 1.50% of the Benefit Base. This amount is deducted from your account value for the prior contract year on each contract anniversary.
- ¹² If you take an early or excess withdrawal, your Benefit Base and Net Purchase Payment Amount will be reduced in the same proportion that these withdrawals reduce your account value.
- ¹³ The Benefit Base will automatically step up to the account value on each contract anniversary if the account value (after deducting any rider charge) is greater than the then-current Benefit Base. Step-ups are available through age 90 (contract anniversary prior to 91st birthday) of the older owner.
- ¹⁴ All guarantees, including any optional benefits, are subject to the claims-paying ability and financial strength of Brighthouse Life Insurance Company.
- ¹⁵ The Benefit Base will not increase by the Rollup Rate if a withdrawal is taken in a contract year. Additionally, there will not be a Rollup Rate increase in years where a withdrawal is taken to pay for fees and expenses associated with a fee-based program. See the prospectus for more details.
- ¹⁶ The Benefit Base will automatically step up to the account value on each contract anniversary if the account value (after deducting any rider charge) is greater than the then-current Benefit Base after the Rollup Rate, if applicable, has been applied. Step-ups are available through age 90 (contract anniversary prior to 91st birthday) of the older owner.
- ¹⁷ A non-excess withdrawal is any withdrawal taken after the Annual Benefit Commencement Date that does not exceed or cause the cumulative withdrawals in the contract year to exceed the Annual Benefit Payment and will not reduce the GLWB or Net Purchase Payment Amount.
- ¹⁸ The terms "income" and "lifetime income" refer to any non-excess withdrawals under the GLWB Rider as well as any lifetime income payments you would receive under the rider if your account value reduces to zero.
- ¹⁹ The rider charge is deducted from the account value on each contract anniversary after applying the Rollup Rate (Market Growth with Rollup version) but before taking into account any Automatic Step-Up.

Investment performance is not guaranteed.

This material must be preceded or accompanied by a prospectus for Brighthouse Shield Level Pay Plus Advisory Annuity, issued by Brighthouse Life Insurance Company, which contains information about the contract's features, risks, charges, and expenses. Clients should read the prospectus, which is available from their financial professional, and consider its information carefully before investing. Brighthouse Financial reserves the right to substitute any index at any time.

Brighthouse Shield Level Pay Plus Advisory Annuity is a long-term investment designed for retirement purposes. It has limitations, exclusions, charges, termination provisions, and terms for keeping it in force, and is not guaranteed by the broker/dealer, the insurance agency, the underwriter, or any affiliates of those entities from which it was purchased. All representations and contract guarantees, including the death benefit and annuity payout rates, are subject to the claims-paying ability and financial strength of the issuing insurance company. Because the client agrees to absorb all losses beyond their chosen Shield Rate, there is a risk of substantial loss of principal. Please refer to "Risk Factors" in the contract prospectus for more details.

Withdrawals of taxable amounts are subject to ordinary income tax. Withdrawals made before age 59½ may also be subject to a 10% federal income tax penalty. Distributions of taxable amounts from a non-qualified annuity may also be subject to the 3.8% Net Investment Income Tax that is generally imposed on interest, dividends, and annuity income if the modified adjusted gross income exceeds the applicable threshold amount. Withdrawals will reduce the death benefit and account value. Early or excess withdrawals may reduce the Benefit Base and Net Purchase Payment Amount. The Benefit Base is referred to as the GLWB Base in the prospectus.

Any discussion of taxes is for general informational purposes only, does not purport to be complete or cover every situation, and should not be construed as legal, tax, or accounting advice. Clients should confer with their qualified legal, tax, and accounting professionals as appropriate.
